### **Discussions:**

1. New website of the club. Don shared the summary of information developed by the website review committee of Don Otis, Dorothy Samson and John Kugler. The objective is a new, clean, informative webpage and all attending made suggestions for edits.
2. At 8:00 pm, Marty Welter joined to the meeting and introduced himself to the board members and guests. He has showed a few websites he maintains and gave information about the cost. Marty indicated that if he is hired to develop our website it would include maintenance during the first year. As part of the maintenance, the first year, he is willing to train some of our members for taking over the maintenance of the site.
3. After Marty signed off of the Zoom call, the board discussed how to proceed. Don reported that in the committee's investigation of other clubs that most clubs used one of their members to develop and maintain their website. The board asked that the membership be solicited for a volunteer to develop our website. Don Otis indicated he has made such a request but will do so again. The board will defer further action until we hear back from the membership.
