

## Mentor Program

The OCC offers a program for club members who may be having specific or general questions about any aspect of photography.

The member wanting guidance would contact the club Mentor Chair. The Chair would then connect a club mentor, with expertise in the area of help needed, to guide the photographer. Once the mentor and the club member are assigned to each other it is their responsibility to connect and have one-on-one sessions however they see fit.

When the two have satisfactorily accomplished their task, they will inform the Chair person so he/she can track who is available to help others.
